LS Series

ATX12V 2.2

450^{WATT} POWER SUPPLY

No longer does upgrading a power supply mean having to break the bank, nor does a limited budget require you to have to 'settle' for a second rate unit. Upgrade to a whole new level with a BFG **LS Series** power supply. BFG's LS Series features a **typical efficiency of up to 85%** so more power is converted to DC than many other power supplies on the market. **BFG Thermal Control Technology** ensures that the unit runs as quietly as possible by varying the speed of the fan in response to load and temperature. **Single +12V rail, over-volt, over-current and short circuit protection** provides rock solid reliability and safety.
